

DO. DILIGENCE. ANYWHERE.

The **MOBILE** Choice for Environmental Due Diligence
And the most powerful way to retrieve and collect data on-site.

Do more in the field. Save time in the office. Site visits just got easier and better.

If you like saving time, our app is a game changer. The ERIS Mobile app lets you view, search, collect and upload project data, all while on-site.

ACCESS DATA

The convenience of having full data on-site.

Access your orders, environmental records, and historical images while you're on-site.

SEE MAP LAYERS

See map layers of your current location.

Compare satellite, terrain, hybrid views, and historical images just like you can in ERIS Xplorer.

ADD NOTES

No more writing notes and copying them over later.

Easily add field notes to your projects while on-site. You can even just dictate them using voice-to-text.

CAPTURE PHOTOS

Immediately add photos from the field to your project files.

Capture, tag and add x and y coordinates to them.

DO CHECKLISTS

Complete digital checklists in real time in the field.

Complete your site visit checklist, take and tag field notes live, instead of having to go over your notes later.

UPLOAD & ACCESS FILES

Upload files right away to ERIS Xplorer or your 'MyOrders' page.

Use photos collected on-site (and all images from your order) to prepare figures and photo logs using ERIS' NEW Figure Creator.

DOWNLOAD FREE NOW

on Google Play (Android) or the App Store (IOS)

Login with the same credentials you use to order ERIS products online.

Need an **ERIS** account? [Contact us](#) and we'll get you started!
