

THE ENVIRONMENTAL ASSESSMENT

POWER SUITE

ERIS – Environmental Risk Information

Services, has been Canada's #1 resource for environmental due diligence data and historical information since 1999.

In 2013, ERIS launched in the United States, and Mexico in 2017, making ERIS the first and only company to offer environmental risk information for all of North America. ERIS delivers accurate, affordable, comprehensive on-demand database research for Phase I ESAs and other environmental due diligence reporting.

Our expertise, innovation, and service-first attitude have made us a valuable partner with environmental professionals from coast to coast.

REPORTS & HISTORICALS

ERIS makes research easy!

In addition to providing **Database Reports** with maps showing the subject property and surrounding areas in a defined radius or to exact specifications, ERIS offers historical products, including fire insurance maps, aerial photos, topographic maps, city directories, chains of title, and lien searches.

ADVANCED TECHNOLOGY

ERIS is constantly innovating.

Our always-evolving environmental due diligence tools are the most powerful, user-friendly, and effective options available. From our fast, easy ordering to our latest report authoring tool called **Scriva**, our platforms and products are built on the latest technology using cutting-edge programming.

INVESTIGATIVE BREADTH

ERIS creates products and tools designed around your needs.

Our tools optimize work efficiency and enable analysis, layering and presentation of data and information. **ERIS Mobile** lets you easily conduct research on-site, then seamlessly integrates your findings to **ERIS Xplorer** for analysis, and to **Figure Creator** for generating made-to-order branded figures and photo logs.

REPORT OPTIONS

All reports are verified by a Report Analyst unless otherwise noted.

- **Standard Database Report/Plus** (databases searched for subject and adjacent properties within a 250m radius/'Plus' adds PSR and Xplorer)
- **Standard Express Report** (a Standard Report delivered fast, within minutes of placing an order)*
- **Standard Select Report** (up to eight databases searched within a 250m radius)
- **Site Report** (subject site only; no adjacent property info)

- **Custom Radius or Linear Report** (choose search area, radius/ buffer, databases required)
- **ON Aerial Package** (a Standard Report, georeferenced historical aerials, an Ontario Base Map – all delivered and presented through ERIS Xplorer)
- **Other Regional Market-specific Reports** (NB PBEI, QB, RRE, ON RSC, BC Site Registry, etc)
- **Excel Add-On** (an Excel file added to the ERIS Report)

* Not verified by a Report Analyst

* ERIS Xplorer will now be included in all reports

An innovative and interactive tool for overlaying, visualizing and analyzing data, historical images, and physical setting information together in one place.

Is the most efficient way to conduct environmental due diligence on-site by retrieving and collecting data, photos, notes, and completing checklists on the go.

Found within Xplorer, the Figure Creator tool enables the easy creation of figures and photo logs. Crop, annotate, title, brand and save/generate images.

The most intuitive, flexible report writer meets full ERIS data integration.
