

INTERACTIVE TABLE OF CONTENTS: BLUE MEANS LINK

When you open an ERIS Database Report, the first page is more than a Table of Contents; it's an interactive guide to help you navigate the entire document. In short, **anywhere you see BLUE TYPE, it means that word or phrase is linked** to another page or section. Below are some examples of how these links work.

Click on Report Summary to access a list of the databases searched within the specified radius. Within this section, click on the [Database Abbreviations](#) to go to the DEFINITIONS page, then click on it again to return.

AAGH	Abandoned Aggregate Inventory
AGI	Aggregate Inventory
AMIS	Abandoned Mine Information System
ANNN	Anderson's Waste Disposal Sites

Click on Site Report Summary to see area sites found, sorted by distance and direction. Click on the [Map Key](#) to access the related MAP; click it again on the map to return. You can also click on the [Page Number](#) on the right to go to the selected site in the DETAIL REPORT.

Click on Summary by Data Source to view sites sorted by database type. Click on the [Map Key](#) to go to the selected site in the DETAIL REPORT; click it again to return.
