# NEW! FIGURE CREATOR TOOL

Xplorer now lets you make custom images

Quickly create made-to-order, branded outputs for your environmental due diligence reports.

Better, Faster Custom Figures and Photo Logs

With **Figure Creator** you can:

- Display and highlight the features of your site that you want to show. Need to generate Figure 1s? Easy. Or create other tailored figures for your projects? Simple.
- Add data layers, boundaries, drawings/symbols and annotations to produce and customize photos and figures - all while working in **ERIS Xplorer**.
- Use any image from the project as a figure, such as FIMs, Aerials and Topos.
- Choose from several ERIS standard templates to brand with your company logo.
- Seamlessly integrate the photos captured via **ERIS Mobile** (or upload other photos).

STEPS TO CREATE FIGURES	STEPS TO CREATE PHOTO LOGS
✓ Select image(s)	✓ Select photo(s)
✓ Select template	✓ Select template
